Security system and method for computers connected to network
US Pat. 5919258 · Filed Feb 6, 1997 · Hitachi, Ltd.
5 is a flowchart showing an example of the monitor processing by the ...
control system call unit 29 scanning the access file information recording area 212 ...

Security framework for dynamically wrapping software applications executing ...
US Pat. 6658571 · Filed Feb 9, 1999 · Secure Computing Corporation
Security master 103 requires that a security module 5 Jf ^ ^ ssi fail securit
module 105 sends process a system call 301. In one embodiment security tm TU ...

Mechanism for linking together the files of emulated and host system for ...
US Pat. 5572711 · Filed Sep 23, 1994 · Bull HN Information Systems Inc.
ld, the pipe and file servers both 35 execute subsequent read/write commands
without further access control checks. The servers process commands in the same ...

Distributed file access structure lock
US Pat. 5175852 · Filed Oct 4, 1989 · International Business Machines Corporation
Sending the data for every successive read is time consuming. ... supports a
multi- processor data process- ing system interconnected in a communications ...

Dual decor capability for a host system which runs emulated application ...
US Pat. 5564098 · Filed Sep 23, 1994 · Bull HN Information Systems Inc.
Of particular relevance to the present invention are the information stored in
... 92 creates server process through the indicated in FIG. 3a. other monitor ...

Data access management system in distributed processing system
US Pat. 7228352 · Filed Oct 10, 2000 · Fujitsu Limited
Further, the file management system oriented monitor subsystem 20 on each ...
and the file open information) retained in its own access control data 211 ...

Secure computer system
US Pat. 5937159 · Filed Mar 28, 1997 · Data General Corporation
For example, The session monitor 403 is shown in greater detail in FIG. ...
Enforcing an idle session information used by AD 503. They merely make sure data ...

System and method for a streams based network access control for a computer
US Pat. 6601048 · Filed Dec 15, 2000 · Hewlett-Packard Development Company, L.P.
10 At step 61, the operating system kernel 50 receives a system call from the
user process 11 or 12 (FIGS. 1 and 2) to bind a network address to the local ...

Access control by a real-time stateful reference monitor with a state ...

US Pat. 7290266 - Filed Feb 8, 2002 - Cisco Technology, Inc.
The stateful reference monitor uses a state database to hold information for ...
Registry requests are intercepted by replacing the registry system call ...

Access monitor and access monitoring method for monitoring access between ...
US Pat. 7039770 - Filed Dec 20, 2000 - Fujitsu Limited
7 shows a flowchart of an access control processing according to another embodiment
... end information 13 of the monitor 1 with a DMA request system call ...

[APPLICATION] Stateful reference monitor
US Pat. App 10/071,328 - Filed Feb 8, 2002
Most systems base their access control decisions on the identity of the local
... The process which correlates the state information can include a rule ...

System and method for a group-based network access control for computer
US Pat. 7032243 - Filed Jul 2, 2001 - Hewlett-Packard Development Company, L.P.
11 12 formed by providing the following information with regard process can ...
the streams access control system 10° of the receiving or sending the data. ...

[APPLICATION] System and method for a streams based network access control for a computer
US Pat. App 9/738,078 - Filed Dec 15, 2000
When data is sent or received on the network interface(s) 47, the attributes ...
system kernel 50 receives a system call from a user process 11 or 12 (FIGS. ...

Flexible interprocess communication via redirection
US Pat. 6748452 - Filed Mar 26, 1999 - International Business Machines Corporation
Interprocess Communication IPC process Redirection Redirection Data ... monitor,
is assigned the task of enforcing the system's access control policy ...

System and method for fault detection and recovery
US Pat. 7000154 - Filed May 13, 2002 - Intel Corporation
In this manner, the software process 141 may call a fault detection and ....
3) Driver/system call errors—drivers in the system (eg to access/control ...

for enabling a rapid communication of cluster system calls through said ...
a sequence of monitor call commands to said monitor call operating system ...

Method and apparatus for detection of computer viruses
US Pat. 5398196 - Filed Jul 29, 1993
1A. name associated with the operating system call. Such In the secure environment
created by the monitor operating system calls are typically used by a ...

System and method for modifying software residing on a client computer that ...
US Pat. 6457076 - Filed Sep 13, 2000 - Networks Associates Technology, Inc.
The install monitor 910 receives operating system calls and messages from the
client application 104. On trapping 1101 an operating system call, ...

Remote procedure callback system and method
US Pat. 5430876 - Filed Jun 24, 1993 - Digital Equipment Corporation
In the step indicated by arrow 46 the monitor thread 40 creates the bound process
by making a system call 25 (box 118). The bound process 30 executes the ...

Passive telephone line monitoring system
US Pat. 5146490 - Filed May 31, 1991 - Primo Microphones, Inc.
2, a block schematic showing of the electronic phone call logging system ...
The phone call monitor processor/memory circuit 15 has output connection 18 to ...

File system for distributing content in a data network and related methods
US Pat. 6711572 - Filed Jan 10, 2001 - XOSoft Inc.
A truncate file call may be presented in the map as a separate field. The file
map also enables the file system monitor to optimize the update file prior to ...

Elevator system

2 is a schematic diagram of a hall call monitor- in the system processor and the
timer provides a low or ing circuit 100 which may be used for this function ...

File alteration monitor for computer operating and file management system
The application 2s program expresses "interest" in specific files by means of
first system call. As various types of actions take place on file in ...

Method and apparatus for integrating video capture and monitor
In steps 725, 730, 735 and 740, it is determined whether the I/O control system
call is a 'capture prepare,' 'capture control,' 'acquire' or 'monitor' ...

Copy file mechanism for transferring files between a host system and an ...
The 370/ monitor call is used to request an LRN and removes an RCT/TCB pair from
... This ensures that system security remains intact in that an individual ...

System, method, and computer program product for automatically updating ...
The install monitor 910 receives operating system calls and messages from the
client application 104. On trapping 1101 an operating system call, ...

System, method, and computer program product for uninstalling computer software
The install monitor 910 receives operating system calls and messages from the
client application 104. On trapping 1101 an operating system call, ...

Dynamically modifying the resources of a virtual server
The monitor must also be able to distinguish between resource requests made by
different virtual servers within the same physical server. A system call ...

Apparatus and methods for visualizing operation of a system of processes
Monitor 418 Continuing in more detail with monitor 418, its components consist
... The code in the library routines for a given UNIX system call invokes the ...

Simulation server system and method
55, In FIG- 48> Simulation server 1140 includes the server the client includes
client program 1109, a socket system call monitor 1141, a simulation job ...

Sockets application program mechanism for proprietary based application ...
1 as in the emulated system. The MCL 3800 monitor call is applied to the socket
monitor call handler unit 284 which locates the corresponding function as ...

Call progress signal monitor and method for telephone systems
In distinction to a publicly accessible telephone system, a call in a private

separated out from .... visually manipulate components, containers and beans. ...

Sending a view event, and a request event having a class name and a method name
US Pat. 6748570 - Filed Oct 28, 1999 - International Business Machines Corporation
The business logic and central data management of an 5 application should be
separated out from .... visually manipulate components, containers and beans. ...

Method and apparatus in a data processing system for the separation of role ...
US Pat. 6862686 - Filed Oct 29, 1999 - International Business Machines Corporation
The business logic and central data management of an 5 application should be
.... to monitor and debug. The details are in two choices: 1) an interface is ...

[APPLICATION] METHOD AND APPARATUS FOR DOCUMENT MANAGEMENT UTILIZING A MESSAGING SYSTEM
US Pat. App 9/201,328 - Filed Nov 30, 1998
The document management system 290 of the present invention utilizes the security
monitor 525 to verify user access to documents, as described in more ...

Techniques for maintaining high availability of networked systems
US Pat. 7228453 - Filed Oct 15, 2001 - GoAhead Software, Inc.
Observed attributes have the get and set methods called to manipulate them. ...
This call takes the name of the class (or NULL to let 50 the system ...

[APPLICATION] Browser interface and network based financial service system
US Pat. App 10/143,477 - Filed May 10, 2002
14, the action menu 204 is instantiated as a market data menu 420 that is provided
... set up and monitor a plurality of stocks 426; obtain detailed news ...

Patents   Any status - Issued patents - Applications   Patents 1 - 20 on system call monitor detect m
Sort by relevance | Sort by date (new first) | Sort by date (old first)

Data processing system having a programmable modem and method therefor
US Pat. 6091806 · Filed Oct 16, 1997 · International Business Machines Corporation
5 to monitor a voltage drop across a source 10 resistor R8 516 of ... ring detect
circuit which may be programmed to modify the characteristics of a ring ...

System and method for dynamically detecting computer viruses through ...
US Pat. 6973577 · Filed May 26, 2000 · McAfee, Inc.
Kf^ "T^ ^ ^ monitor(analyzer 19 i&f initial- (6) System configuration area ...
written into tored system call matches a triggering event (block 132), ...

Selectively activated dual tone multi-frequency detector
US Pat. 5459781 · Filed Jan 12, 1994 · Dialogic Corporation
Indeed, the detection of speech can be used as an input to modify the activities
... a signal could be sent to call progress monitor 205, which signal would ...

Method and system for processing tones to reduce false detection of fax and ...
US Pat. 7187656 · Filed May 2, 2002 · General Instrument Corporation
The VAD is used to detect the occur- and modifies system parameters 155 ...
120B modify the detection criteria parameter if the time reaches a 25 or call ...

Data processing system having a programmable modem and method therefor
US Pat. 6408059 · Filed Nov 6, 1999 · International Business Machines Corporation
5 to monitor a voltage drop across a source resistor R8 516 of transistor 520.
... to modify the characteristics of a ring detect circuit within a modem to ...

Inductive loop vehicle detector
US Pat. 3989932 · Filed Jan 23, 1975 · Canoga Controls Corporation
During each left turn pocket for the purpose of recognizing the detect cycle,
... error input to modify (ie servo) 65 on the characteristics of the vehicle, ...

Method for monitoring and controlling traffic in real time in an ATM ...
US Pat. 6570846 · Filed May 25, 1999 · Samsung Electronics Co., Ltd.
Although GCRA is a simple algorithm with good performance to detect whether the
... However, the system designer tends to modify GCRA to monitor the traffic ...

Voice interactive call center training method using actual screens and ...
US Pat. 5757644 · Filed Jul 25, 1996 · EIS international, Inc.
The screen identifier generates a live screen iden- the monitor 14 at an agent
... agent's voice energy level to detect a response point for a 35 invention, ...

Method and apparatus for preventing an originating facsimile machine from ...

US Pat. 6124949 - Filed Oct 14, 1998 - Motorola, Inc.
In the preferred start connect timer monitor 52 and NSF message generator ...
sage does not alter the characteristics of the facsimile more than one media. ...

Microprocessor based bed patient monitor
US Pat. 6784797 - Filed Aug 1, 2002 - Bed-Check Corporation
The EEPROM 101 is used to store operating characteristics, ... uses a relay KI
to provide isolation between the monitor circuitry and the nurse call system. ...

System for configuring an event driven interface including control blocks ...
US Pat. 5493689 - Filed Mar 1, 1993 - International Business Machines Corporation
We first describe MAC layer characteristics. Then we explain the rational for
choosing a performance analysis expert system to analyze the the token ring ...

Graceful degradation system
US Pat. 6944798 - Filed May 11, 2001 - Quest Software, Inc.
The graceful degradation system can be used to modify the behavior of an ...
36, for example, the system may monitor the state of the quote and trade ...

Method and apparatus for the remote verification of the operation of ...
US Pat. 5406269 - Filed Aug 13, 1993 - David Baran
A system to monitor software usage of owner- leased proprietary software ...
of a user of said electrical apparatus to detect violations of software usage ...

Method and apparatus for interconnecting a circuit-switched telephony ...
US Pat. 6333931 - Filed Dec 28, 1998 - Cisco Technology, Inc.
The system can modify dialed digits that arrive to make it easier for the networks
to route a call. The system can protect against attacks against the data ...

Elevator system
US Pat. 4155427 - Filed Dec 6, 1976 - Westinghouse Electric Corp.
... supply of the elevator system a power supply monitor. which has all of the
following characteristics: 2. Description of the Prior Art (1) It will detect ...

Machine translation and telecommunications system using user ID data to ...
US Pat. 5535120 - Filed Jun 7, 1995 - Trans-Link International Corp.
The tasks of the DMO are to monitor the adding of new dictionary entries and ...
these dictionary-rela- 55 lion tasks call for sophisticated utilities to be ...

Bypass for telephone switching system
US Pat. 5214692 - Filed Aug 28, 1991 - Aspect Telecommunications Corporation
The call is answered when the far end responds with the A,B bits set to 1.
Either end can initiate (detect) a release condition by setting (detecting A ...

Telephone call center monitoring system with integrated three-dimensional ...
US Pat. 6542156 - Filed Jul 21, 1999 - Avaya Technology Corp.
20 The 3-D bar graph of the present invention has other characteristics of note.
... The server also causes the split data from each split monitor to be ...

System for real time communication buffer management
US Pat. 6434606 - Filed May 28, 1999 - 3Com Corporation
In the case of a telephone call, digital signal 583 is communicated to the encoder

... monitor the varying transportation characteristics of network 535. ...

Screen display control method and a screen display control apparatus
US Pat. 6028585 - Filed Jul 1, 1996 - International Business Machines Corporation
The hardware and the software arrangements of a computer system that embodies
... When system 100 is powered on: After the system 100 is powered on and the ...

Sort by relevance | Sort by date (new first) | Sort by date (old first)

System and method for dynamically detecting computer viruses through ...
US Pat. 6973577 - Filed May 26, 2000 - McAfee, Inc.
Kf^ "T^ ^ ^ monitor(analyzer 19 i&f initial- (6) System configuration area ...
written into tored system call matches a triggering event (block 132), ...

Voice interactive call center training method using actual screens and ...
US Pat. 5757644 - Filed Jul 25, 1996 - EIS International, Inc.
4, in the operation of a training 30 base, or even have data input access to the
call server data session, script material from script store 36 is displayed ...

Method and apparatus for preventing an originating facsimile machine from ...
US Pat. 6124949 - Filed Oct 14, 1998 - Motorola, Inc.
In the preferred start connect timer monitor 52 and NSF message ... wherein a
flowchart of the process of negotiating call completion 35 has expired, ...

Method for monitoring and controlling traffic in real time in an ATM ...
US Pat. 6570846 - Filed May 25, 1999 - Samsung Electronics Co., Ltd.
Although GCRA is a simple algorithm with good performance to detect whether the
... However, the system designer tends to modify GCRA to monitor the traffic ...

BROADCAST SIGNAL IDENTIFICATION SYSTEM
US Pat. 3919479 - Filed Apr 8, 1974
Other processing of the informa- from which the reference signal segment has
been „ tion can be performed by an appropriate data process- taken. ...

Machine translation and telecommunications system using user ID data to ...
US Pat. 5535120 - Filed Jun 7, 1995 - Trans-Link International Corp.
The tasks of the DMO are to monitor the adding of new dictionary entries and ...
these dictionary-rela- 55 lion tasks call for sophisticated utilities to be ...

System for configuring an event driven interface including control blocks ...
US Pat. 5493689 - Filed Mar 1, 1993 - International Business Machines Corporation
Control 158—Modify the behavior of the device or network to conform to expected
criteria. To further clarify the analysis process and demonstrate how ...

Method and apparatus for optical lifetime tracking of trench features
US Pat. 6625514 - Filed May 23, 2001 - Advanced Micro Devices, Inc.
11 trench analysis process (block 1250). The determination of the process that
... 9-12, optical data analysis is used to track, monitor, and compensate for ...

System and method of providing interactive vector graphics over a network

The image may be rendered on a monitor or the like. The data 104 may ... the vector objects 102 detect and respond to events on the client system 14. ...

Automatic reconfiguration system for change in management servers having ...
By so modifying the re-configuration process, the PCS can be controlled based on ... to monitor the network scanning for re-configuration packets. ...

Method and apparatus for gait measurement
There is thus a need to monitor a person's dynamic gait while using a walking aid. ... It is a further object of the invention to detect and indicate to the ...

Alternating sequential half duplex communication system
Another purpose of the invention is to use a novel or all call addresses can ... to data and A address channels (where A=ND) used monitor the parameters of ...

Integrated digital control system and method for controlling automotive ...
An integrated digital control system for an automotive 35 electrical device ... of the auxiliary control means and all data; 50 instrument panel/monitor ...

Optical communication system with improved maintenance capabilities
This clock signal can be used by the CO. when it returns with the data from ... the RN is sensitive is to monitor the RNs' responses at the CO and to modify ...

Automating tuning of speech recognition systems
The feedback module 16 may actively modify the grammar files 17 and speech ... For example, the system may automatically make use of the feedback data to ...

Computer immune system and method for detecting unwanted code in a computer ...
The virtual PC simulates 2Q computer system. The behavior pattern can also be stored ... identify certain types of viruses that initially modify only the ln ...

[APPLICATION] Systems and methods for multiple mode voice and data communications using ...
Typically, as part of the manufacturing or deployment process, a system is manufactured or installed, and a technique attaches a keyboard and monitor and ...

[APPLICATION] System and method for external event determination utilizing an integrated ...
If no rule is found, the process terminates at block 606. ... the paging of an on-site monitor and a land-line telephone call to the public authorities. ...

[APPLICATION] Systems and methods for voice and data communications including a scalable ...
49B illustrates various data bus lines 620 traversing card slots ... Typically,

as part of the manufacturing or deployment process, a system is manufactured ...

[APPLICATION] U.S. Patent 10326718
US Pat. App 10/326,718 - Filed Dec 18, 2002
49B illustrates various data bus lines 620 traversing card slots 621 on an ...
Typically, as part of the manufacturing or deployment process, a system is ...

Any status - Issued patents - Applications   Patents 1 - 7 on "system call" monitor tag. (0.1:
                                             Sort by relevance | Sort by date (new first) | Sort by date (old first)

System and method for managing client requests in client-server networks
US Pat. 6912588 · Filed Apr 2, 1998 · Intel Corporation
The "download" command may be a markup tag based on a hypertext markup ...
4), the application software executes a hand-off system call to instruct the 35 ...

[APPLICATION] Method and apparatus for protecting sensitive information in a log file
US Pat. App 10/142,615 · Filed May 9, 2002 · International Business Machines Corporation
A network monitor used to monitor network traffic on a local area network and an
... such as a command line option, a parameter of a system call, etc. ...

[APPLICATION] Trusted gateway system
US Pat. App 10/240,139 · Filed Sep 26, 2002
System-Call Replacement Via Dynamically Loadable Kernel Modules (V2) [0248] ...
a kernel-level reaper thread may be used to monitor the global tasklist and ...

[APPLICATION] U.S. Patent 10240137
US Pat. App 10/240,137 · Filed Sep 26, 2002
In view of the fact that the scalar tag is attached to the various ... System-Call
Replacement Via Dynamically Loadable Kernel Modules (V2) [0243] This ...

[APPLICATION] Method and system for providing a framework for processing markup language ...
US Pat. App 9/888,329 · Filed Jun 22, 2001
In other words, the inclusion of tag variables within an HTML, ... [0149] The
clear advantage to tag variable inclusion is the insertion into a markup ...

[APPLICATION] Mechanism to synchronize probes during simulation of system-level designs
US Pat. App 10/294,241 · Filed Nov 13, 2002
This parameter allows the SP to tag each database sample unambiguously for later
... A cluster of probes 305 are synchronized to simultaneously monitor ...

Mechanism to synchronize probes during simulation of system-level designs
US Pat. 7072813 · Filed Nov 13, 2002 · Cadence Design Systems, Inc.
This parameter allows the SP to tag each database sample unambiguously for later
... A cluster of probes 3 05 are synchronized to simultaneously monitor ...
